

## Product Enhancements

### General

- *All in one!* You can now select all properties for Property/Tenant/Vendor users and Vendor companies when creating a new user or company.
- *Want to set your own building hours?* Now you can on your property profile page. You can also mark your property as closed on Federal holidays

### Work Order

- *Find your properties easier!* Property ID is now available as a column on the work order grid. Use this to easily find work orders for a particular property.
- *New filters on the Work Order Grid!* You can now filter by Creation Date, Completion Date, and Target Completion Date using a date range or relevant dates I.e. Today, Yesterday, This Week, Last Week, This Month, Last Month, This Quarter, Last Quarter.

### Communications

- *New communication method!* Post your building communication messages to your tenant's dashboards using our new Notices Feature. Tenants will now see a new dashboard card where your notices can appear in addition to receiving them by email/text. Notifications can be marked with a specific icon to indicate they are related to Covid-19.

### Reports and Dashboards

- *New filters!* On the Work Order Details, Work Order Labor and Materials, Work Order Billback Summary, and Work Order SLA Reports you can now filter by Floor, Completion Date, Target Completion Date, and Closed Date
